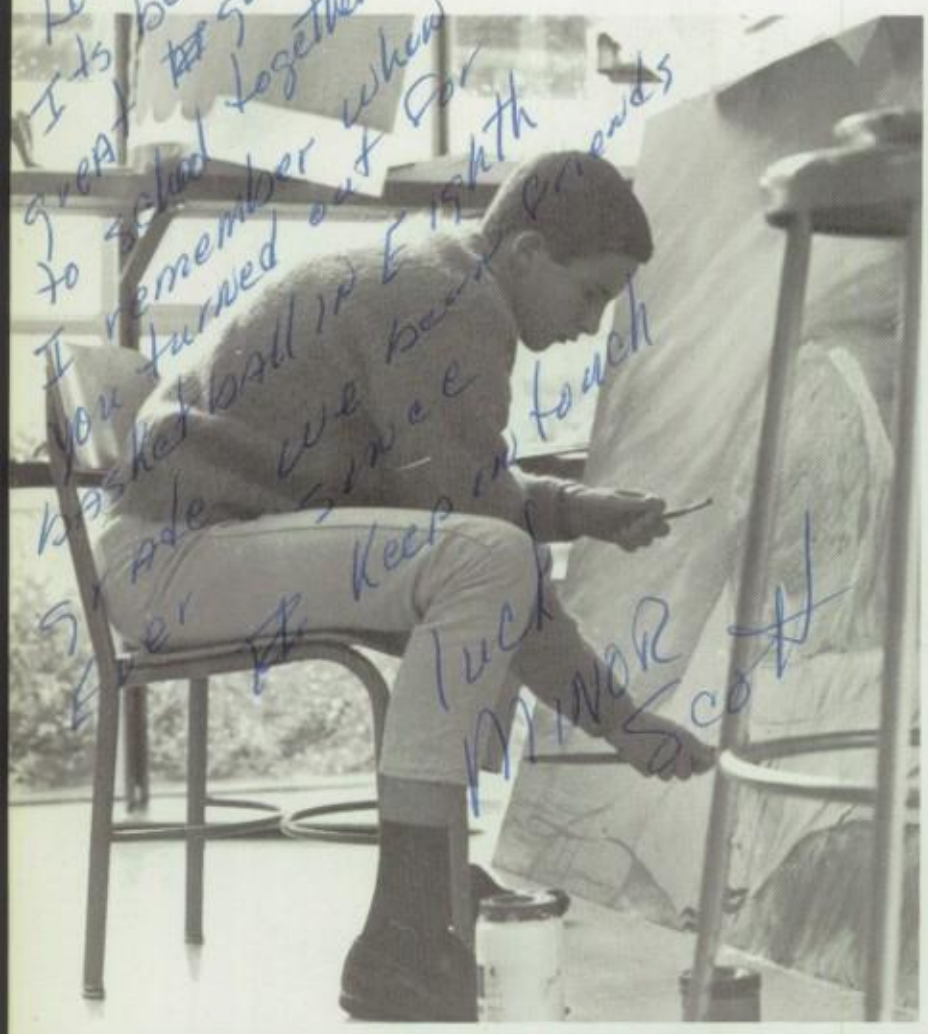
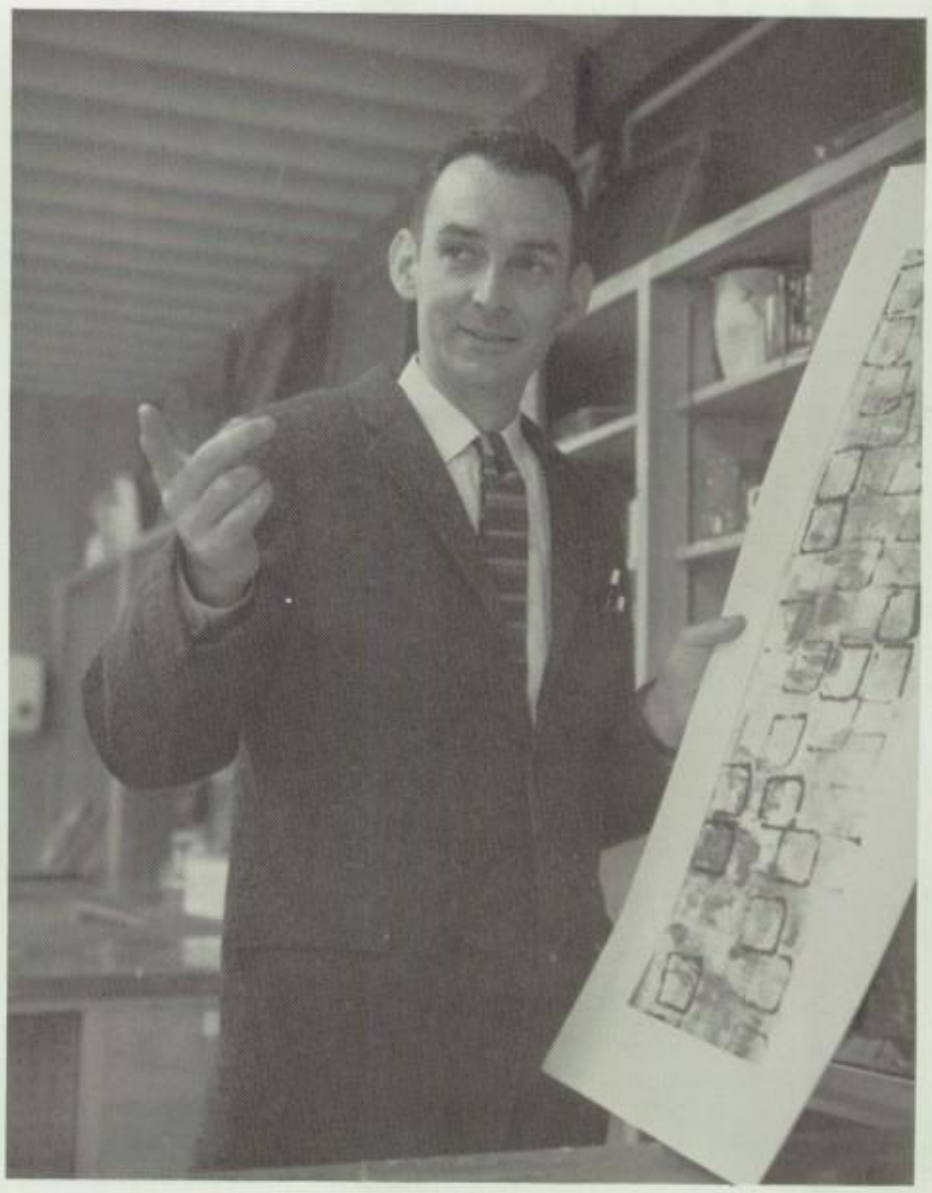
ACADEMICS

My leaf told of learning, students engrossed in the quest for knowledge, fulfilled by the ministers of wisdom. To teach is priceless for knowledge lingers eternally.





ABOVE: Mr. Ernest Wanzer, art, humanities. *BELOW:* Miss Mary White, art, math. *RIGHT:* Typical artists, Jeff Skillingstead and Pam Williams concentrate on their work.

Picasso Meets His Competition

Talent, patience and a steady hand produced countless drawings, etchings, and sculptures. These pieces of art work were displayed on the window, walls, and shelves of Room 317.

The art department, instructed by Miss Mary White and Mr. Ernest Wanzer, provided the necessary help in making posters, announcements, and booster buttons for the student body.

Managing the school store, was one of the many jobs that the distributive education classes performed. The school store, located in the 100 building, provided a good source for the DE students to learn the aspects of dealing with people, selling, and business communications.

LEFT: Mr. Cle Gunsel, distributive education. *ABOVE:* DE vice president, Mike Hill, finds that managing the school store can be a bewildering job.

Practice Perfects P's and Q's

Enduring the clickity-clack of typewriters in order to become successful in the business world was one of the hardships of a typing student. Timed writings were often depressing while typing sailboats and reindeer proved to be much fun.

Office occupations, in its second year, had a great response. Specializing in clerical and office machines training, it was recommended for students who planned on full-time employment immediately upon graduation.

Other classes offered by the business education department were bookkeeping, shorthand, business law, and office practice, and the semester classes, business English and office machines.

Spricht Or Hablo A Foreign Language

There is no better way to find out what our neighbors are like than by learning their language. Taking a foreign language did, of course, mean a certain amount of work. Studying irregular verbs, reciting declensions and speaking to a machine in the language lab, were a few of the necessary procedures for learning a foreign tongue.

Learning another country's customs and practicing some of them proved to be fun. Puppet plays in French and making Kartoffelpfannkuchen (potato pancakes) in German class, are just a few of the different things one did in language class.

By the end of the year language students probably were able to manage an "Auf Wieder-Sehen," "Au Revoir," or "Adios," in the language of his choice.

Boys and Girls Learn Homemaking

Setting ovens, scrubbing dishes, and general mayhem were an integral part of girls' home economics this year. The girls in home ec. were shown the general practices of cooking and sewing, and how to apply these practices. The boys who took home economics experienced a variety of things from sewing aprons to cooking french toast. Mrs. Jean Young taught home relations, tailoring, and the all-time favorite, boys home economics, while general home ec. was taught by Miss Helen Galleher, a newcomer to the school.

Fumbling Fingers Become Skilled Ones

In the industrial arts and crafts class, students learned to turn fumbling fingers into hands used as skilled tools. Cabinets of wood, rings of metal, and artistic wooden sculptures were created by those hands. Although these were elective classes, the hours and energy spent working on projects doubled those in required classes.

Variety Adds Interest to English

Each year the English Department adds more and more variety to the students' curriculum by offering a wide scope of projects, ranging from the composition of folk ballads to a trip to the Repertory Theater.

Mr. Simmons' senior English classes broke away from the classical tradition of analyzing and watching a production of "Macbeth", by studying instead another of Shakespeare's plays, "Henry IV".

An added attraction to the junior English program was the composing and singing of student folk ballads. Also included was an extensive vocational unit.

A welcome change for the sophomores this year was the replacement of "Silas Marner" with John Steinbeck's "The Pearl".

All of this, and much more helped to make the normal English class something to look forward to.

Humanities Explore Eastern Culture

Humanities provided a program out of the ordinary. Fulfilling the leading roles in the fifth period class were Mr. Ernest Wanzer, the outstanding lecturer in the arts; Mr. James Brandt, the instructor of musical aspects; and Mr. William Simmons, the literary expert. The plot covered the cultures of the East as a substitute for one semester of English. Occasionally a guest appeared in the schedule to give the audience variety. Such appearances were made by Mr. Labh Singh Sachdev, a Sikh Indian, who enlightened students concerning conditions in India, and Reverend Tada, concerning the Buddhist religion.

Senior English and humanities worked together to create the single effect of a one-year program that gave the student an outstanding background in Eastern art, literature, and music. The result was a refreshing new way to earn English credits.

All the World Is a Stage

BELOW: Carolyn Barnett pauses a moment before starting an impromptu speech.

Debate was offered as a class for a second year. The main theme for debate was, resolved: that Congress should establish uniform regulations to control criminal investigations. Taking either the "pro" or the "con" side, the procedure was still the same: research the topic, organize it, and then present the topic in the form of a debate.

Speech offered a variety of subjects to work on, ranging from character walks, to analyzing the personalities of various authors. The class was especially valuable in that it gave students a chance to perform and criticize.

Drama, a new and challenging class, was offered for the first time this year. This class, taught by Mrs. Lucille Phillips, instructed students in the techniques of presenting a play and projecting the character through actions, in the form of pantomimes and words.

Staffs Publish Ram's Horn and *TOR*

Mount Rainier's newspaper, the Ram's Horn, was brought back into existence as a class after being temporarily discontinued. Under the experienced guidance of Mrs. D'Ann Pedee, the staff interviewed hippies, gave thought-provoking editorials, informed students of sports news, and presented many articles tinged with humorous tidbits.

The most important word in annual was color. Although the quarters were crowded, the staff was determined to make the '67-68 TOR a unique one. However, life was not always beautiful as the class soon found out; working until seven or eight o'clock sometimes proved to be traumatic. But persistence prevailed, resulting in a better than ever TOR.

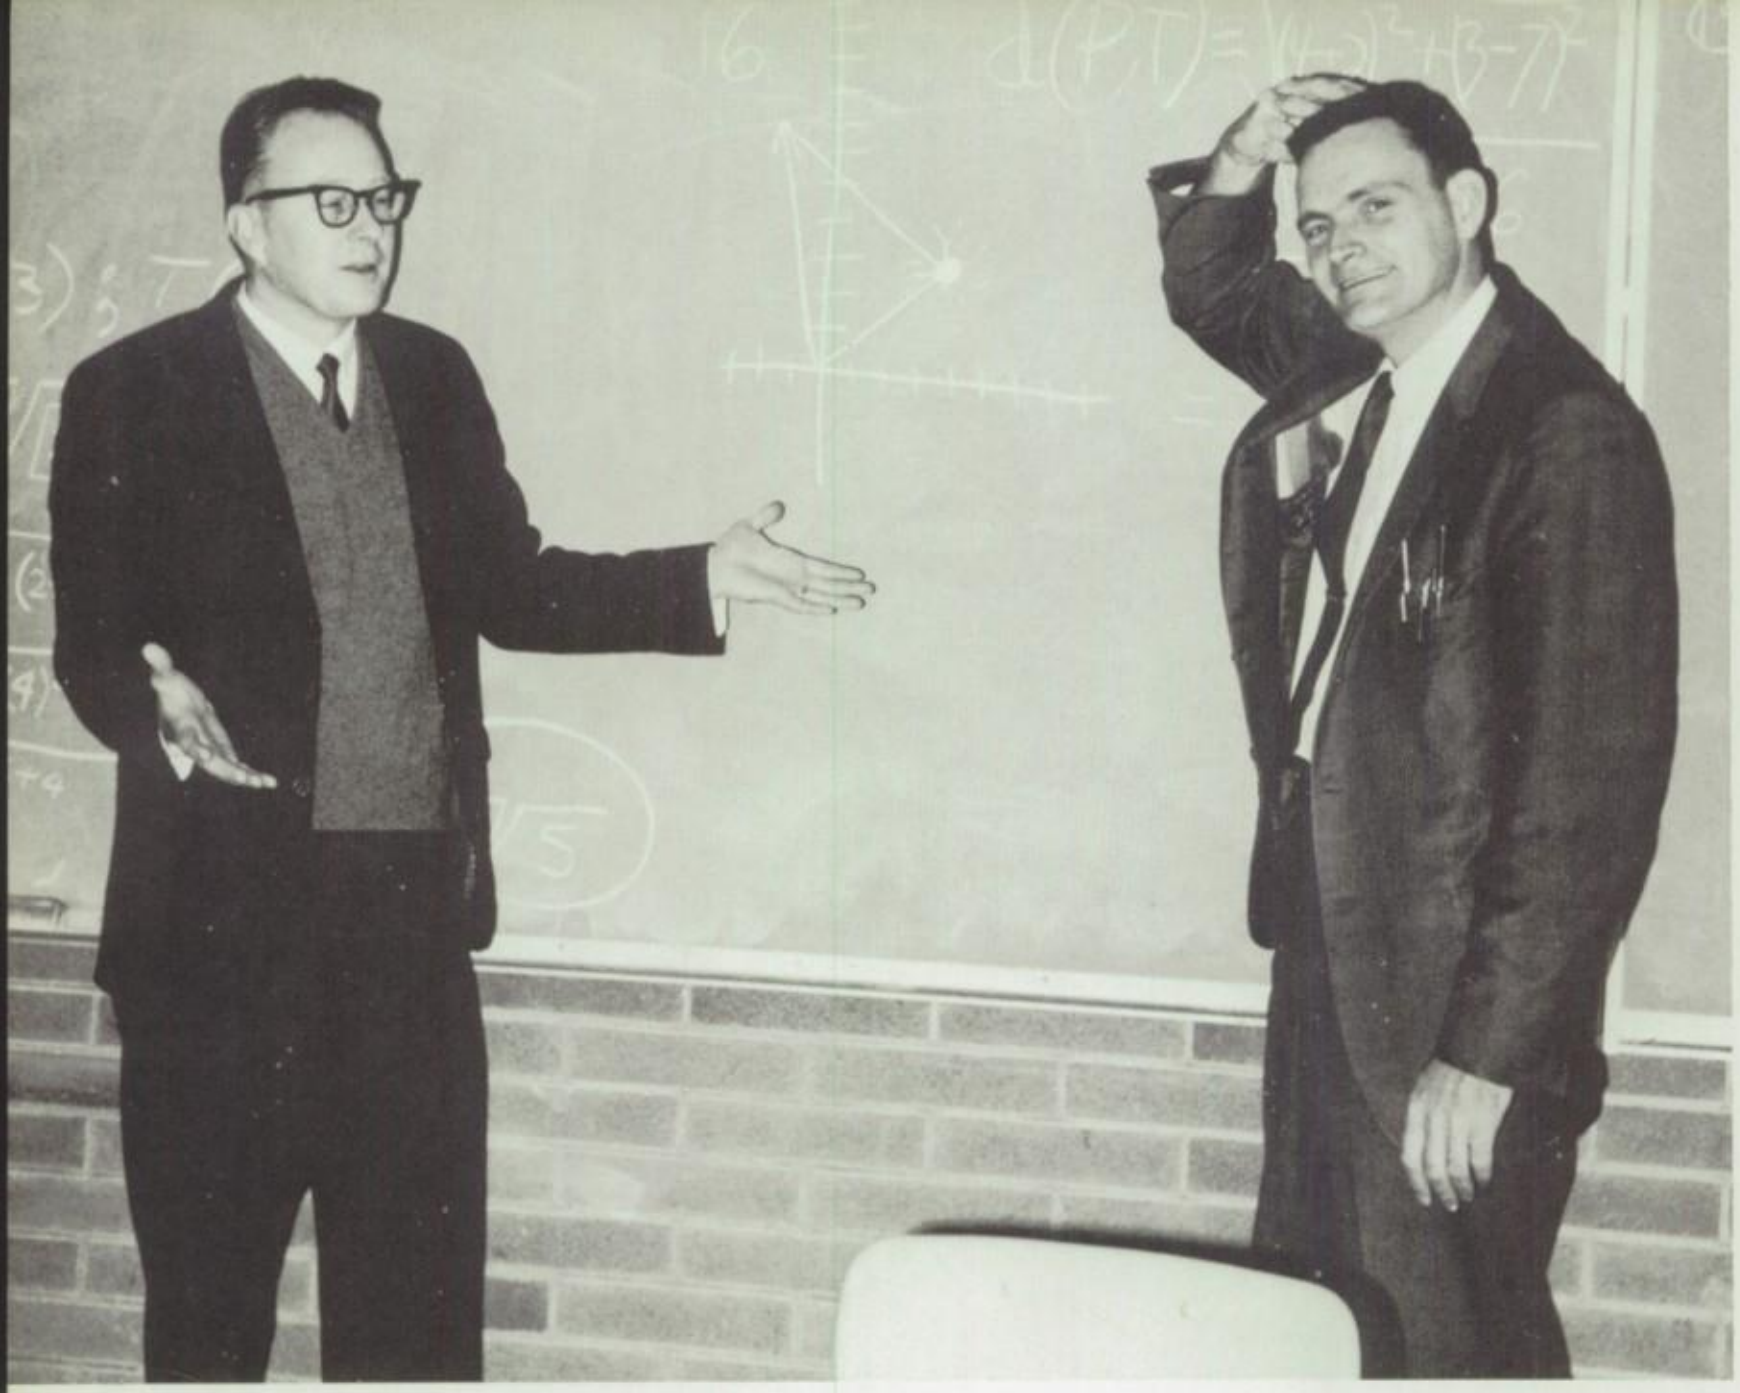
Words Hold the Key to the Future

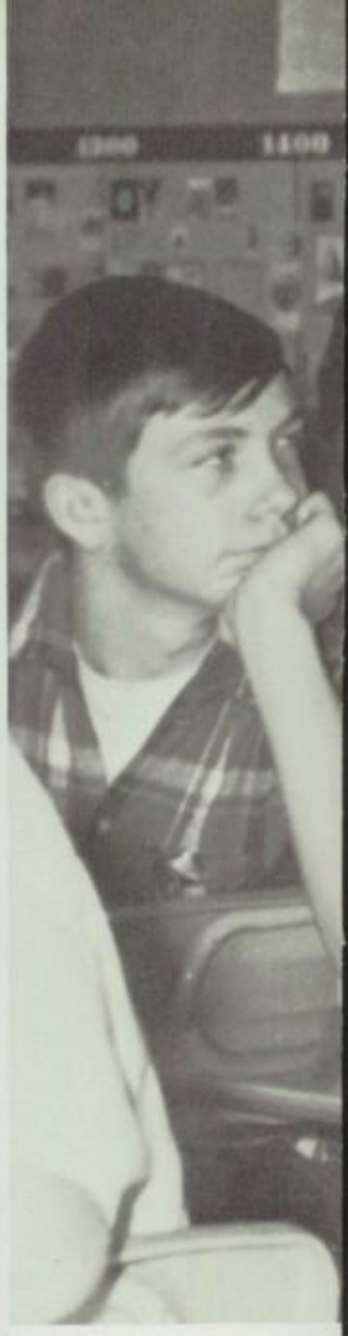
Words are ever present in our society, as they are the basis of communications. Two new classes this year, designed to improve knowledge of words, were developmental reading and writing lab.

Developmental reading was designed to improve the student's reading speed and comprehension and to increase his knowledge of vocabulary through improved study techniques.

The purpose of writing lab was to teach a student the art of writing. This was achieved three ways: by studying grammar and sentence structure, by studying the writings of professional writers, and finally by practicing the skills that the student had learned.

RIGHT: Studying the works of professional writers was one of the highlights of writing lab. *LEFT:* Some students find that pencil chewing helps aid comprehension in developmental reading.





Math-Science Elective Is Unique Study

Mt. Rainier's most unique elective was the math-science program, as it was the only course of its type offered in the United States. The class consisted of a two-hour block of math and science, a combination designed to correlate the two subjects and to present them in their proper perspective. On occasion the majority of the students were shuffled into a corner and left to their own resources while the instructors worked with smaller groups. In addition to the lectures, films, and experiments that made up a large percentage of the activities in the classes, a number of field trips were taken. At one time the class, consisting mostlyof juniors, visited the Science Center to view a mathematics exhibition on display; in its turn, the senior class traveled to the University of Washington to observe the cyclotron.

ABOVE: Mr. Gary Tressel and Mr. Frank Clement, both math teachers, puzzle over a difficult problem. *LEFT:* Steve Estlund and Sharon Boies listen intently to Mr. Clement's lecture.

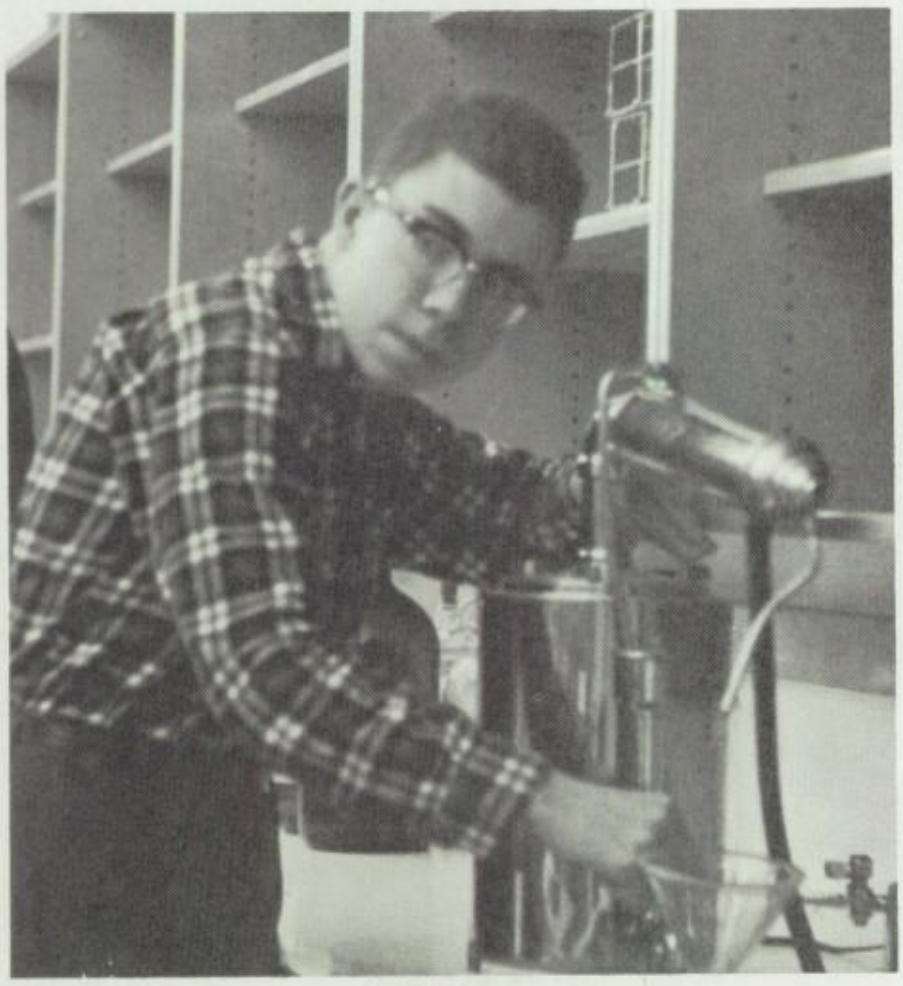
Biology Unlocks Door to Vast Unknown



The amount of knowledge the layman has of biology is usually far surpassed by what he doesn't know. Four dedicated biology teachers faced hundreds of students in order to substantially increase that knowledge.

Students discovered that biology wasn't just preparing graphs and writing lab experiments. Often you could hear students say, "What? Dissect a frog? I think I'm going to be sick!" For those unsuspecting students with queasy stomachs, it proved to be a challenging course.

Under the direction of Mrs. Adele Lince, Mr. Kenneth Kimmel, Mrs. Ruth Arnold, and Mr. Walt Raney, emphasis was placed upon science as a field of investigation and inquiry. From the tiny one-celled amoeba to the largest of animals, students probed the many mysteries of science, aided by teacher, textbook, and curiosity.

Changes Anticipated in Math Department

Math is man's only man-made science. Sometimes called the "Queen of the Sciences," math is one of the largest departments at Mt. Rainier. New this year was consumers' math; a class more practical than a similar course offered in previous years.

Mr. Frank Clements, head of the math department, hoped for a change in the future for interested and good students who were "being held back for lack of an advanced course." One program now underway consisted of twenty-one sophomores taking Algebra III and IV. If the students passed a national standard test at the end of the year, they could proceed with mathematical analysis and trigonometry in their junior year.

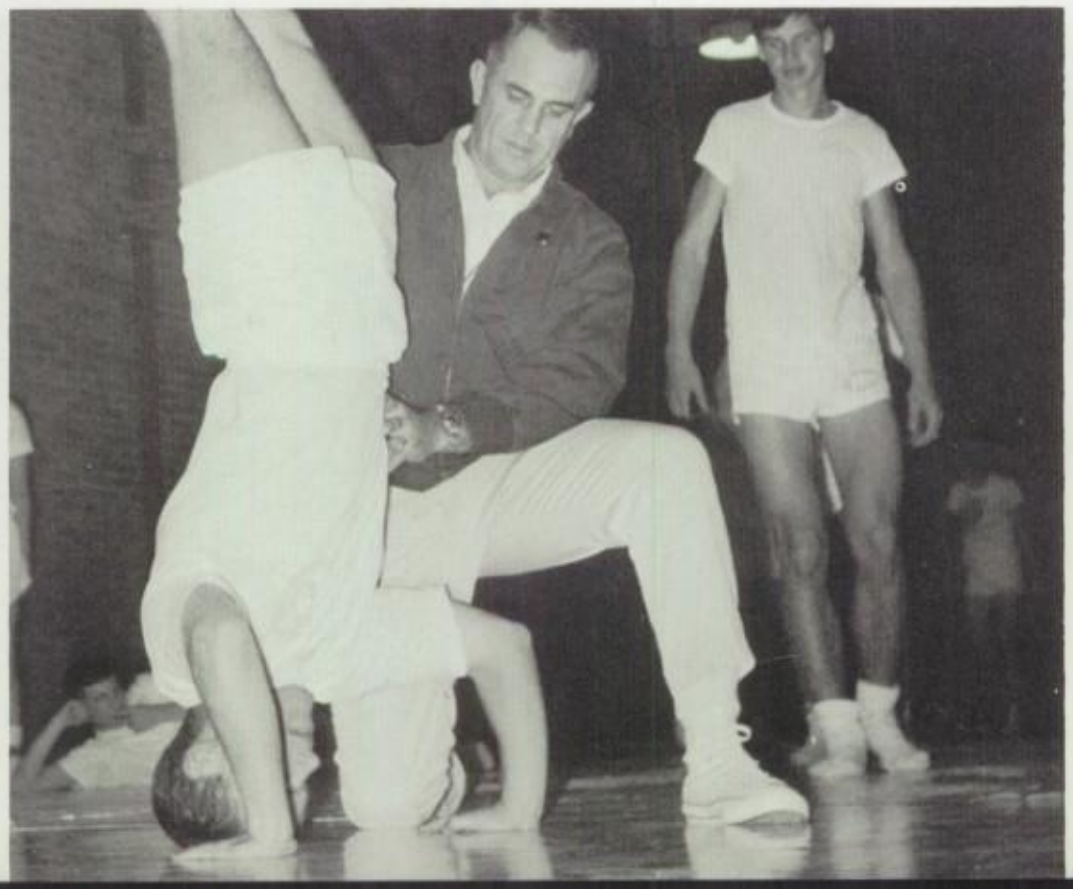
P.E. Creates New Outlook on Sports

For the students who participate, physical education develops one mentally as well as physically. It includes physical activities and some courses of study connected with the individual's health, safety, and recreation. The study courses taught the accepted rules of courtesy and sportsmanship, an appreciation of outdoor life, and the cultivation of lifelong recreational interest.

The juniors also have a semester of health which included the study of principles of nutritious living, rules of safety in everyday life, and methods of first aid and lifesaving. But, for most students, P.E. was a refreshing change from the regular class routine.



Students often seem all legs as they attempt routines on high parallel bars.

History Lives and Challenges

The usual frantic race through history, was drastically changed by the addition of many intriguing new methods and approaches. During world history classes, sophomores studied events leading from the fall of ancient Rome to the current crisis in Viet Nam. Juniors, in Mr. James Glennon's and Mr. Douglass Ringenbach's U.S. history classes, were offered a new combined teaching method. This gave the students a chance to hear different opinions.

Seniors' contemporary problems kept students awake and thinking with pop quizzes and discussion groups. In Mr. Bartlett's class, a mock U.N. was formed. In sociology and economics, students learned about social groups, propaganda, and economic systems.

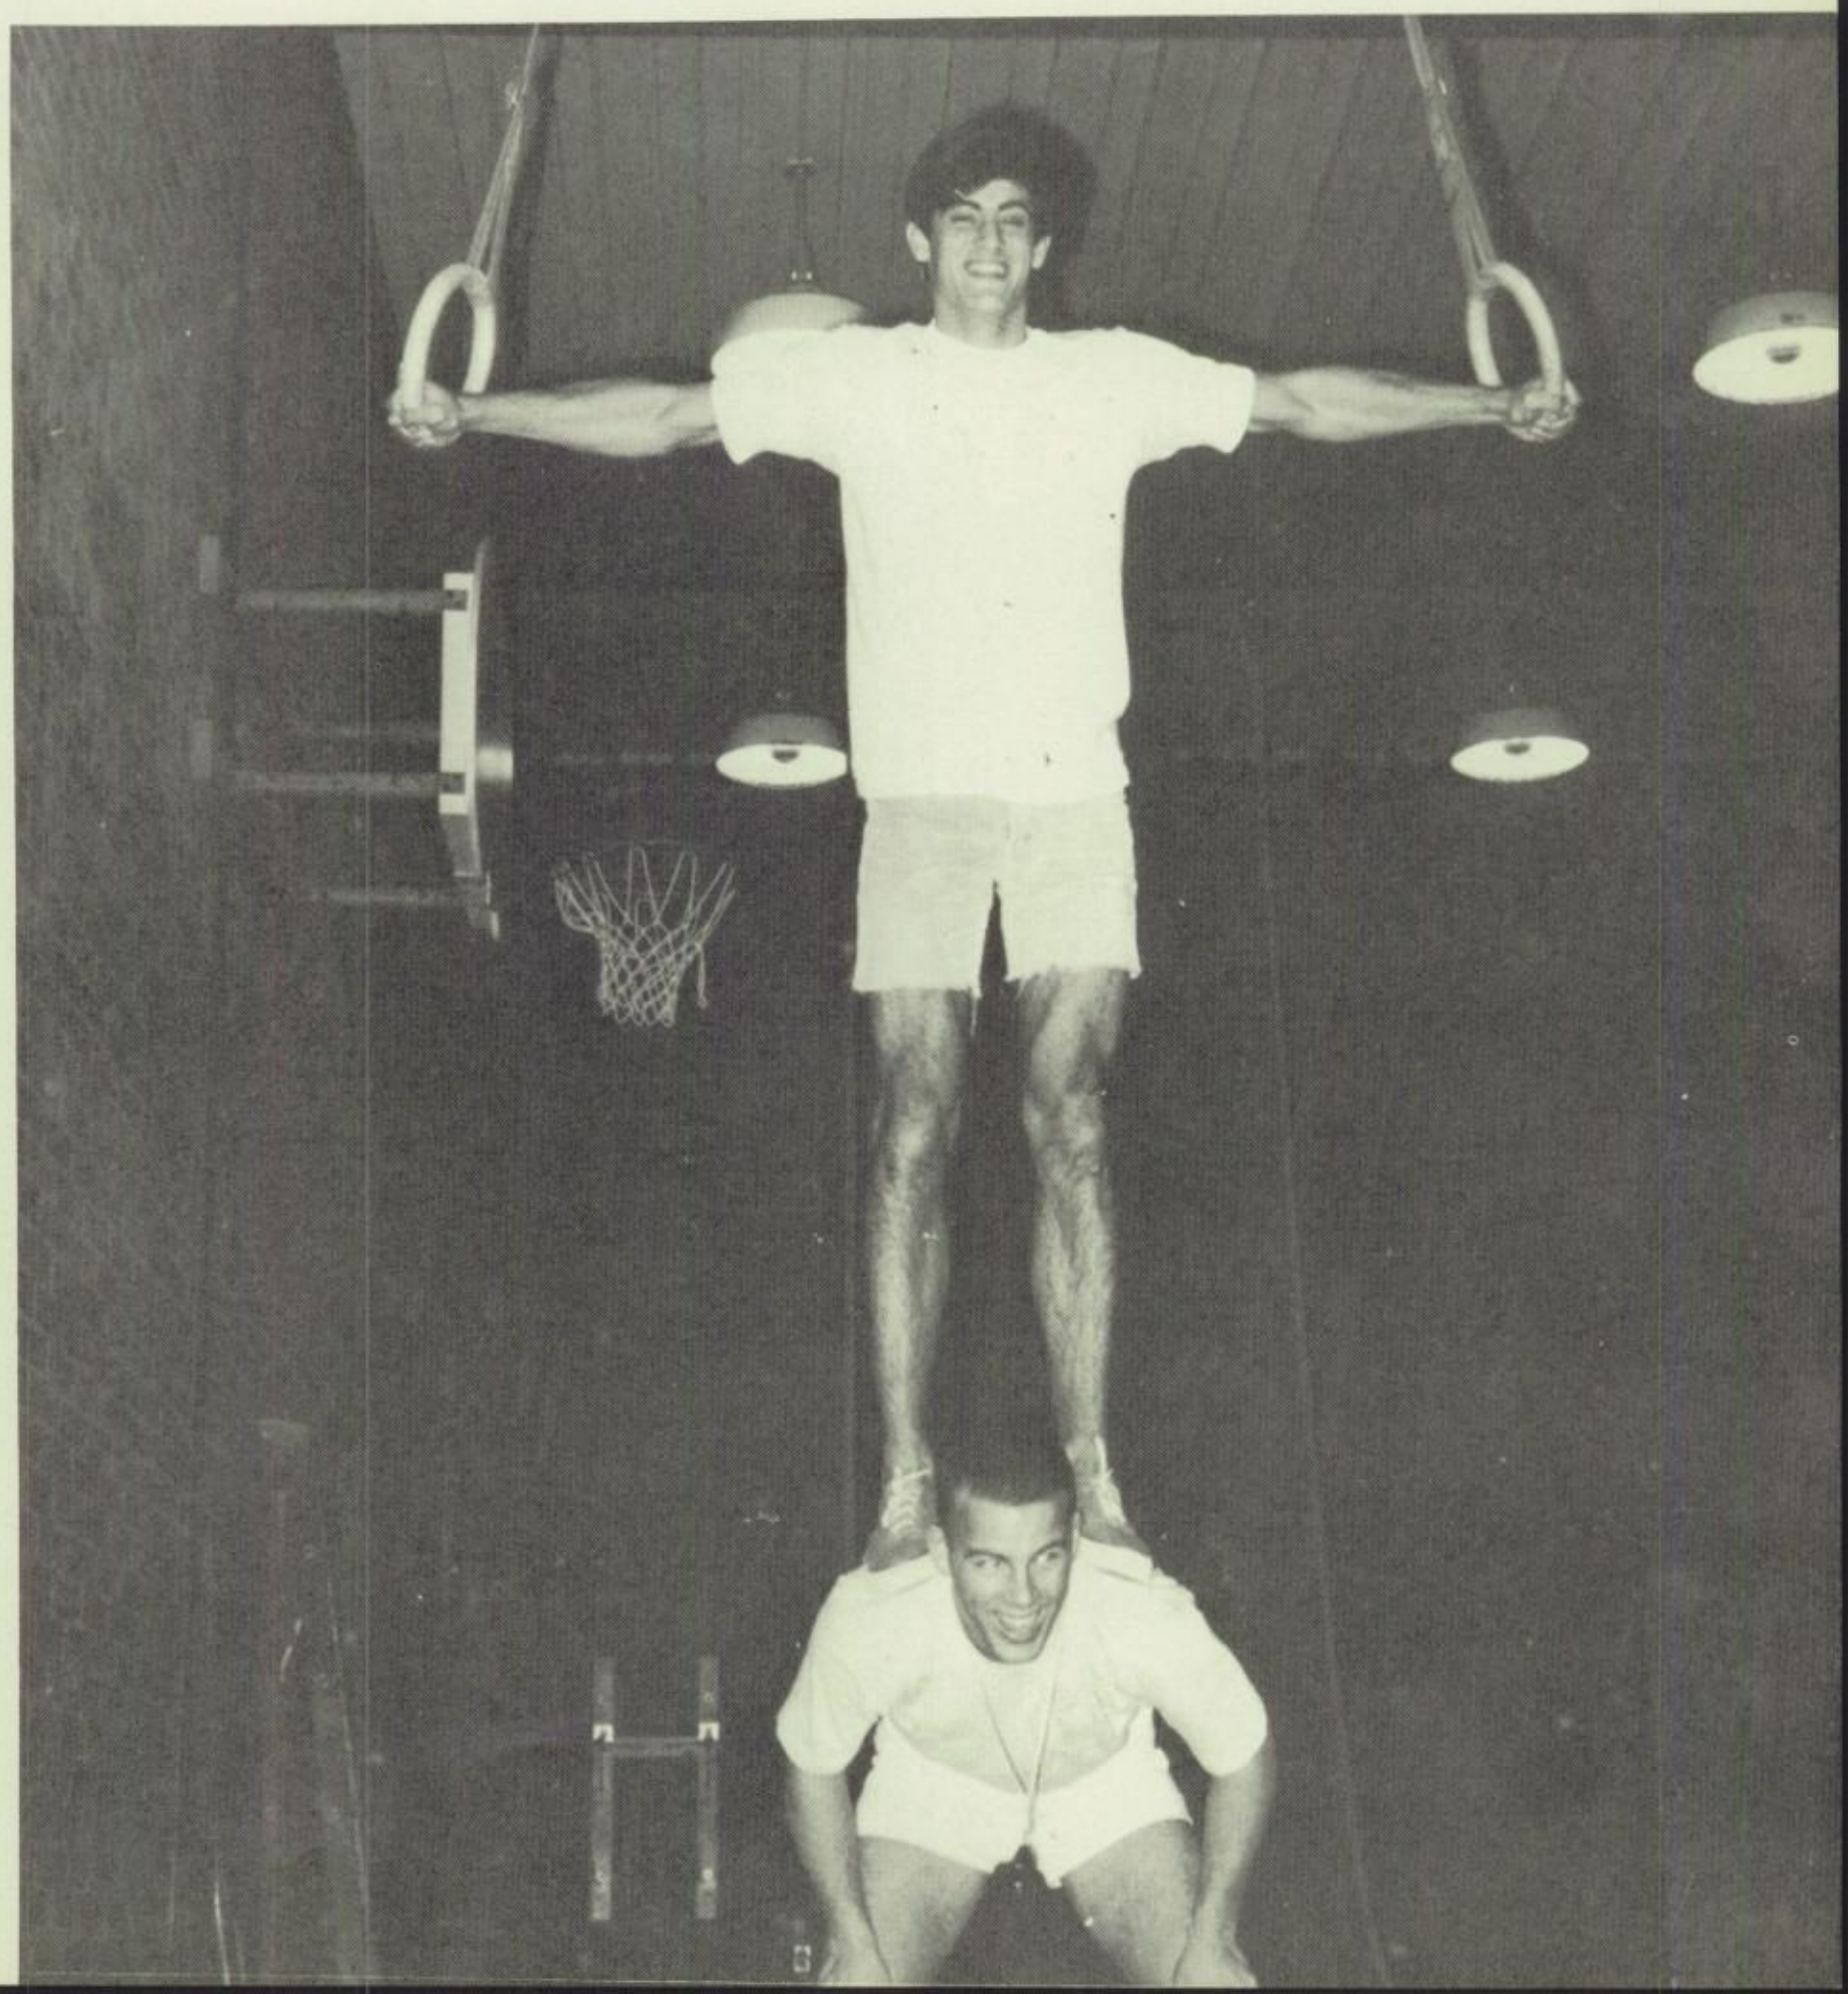
Pupils Learn by Assisting Teachers

An indispensable asset to the teaching staff came in the form of the student assistant. When all seemed lost, it was usually the assistant who came to the rescue. Student aides served in a multiformity of ways. They could be found preparing experiments and washing test tubes. Performing feats of strength, various athletic maneuvers, or just simply helping the teacher in minor but important ways, were among the tasks the assistants were expected to do.

When not totally occupied with these tasks, they resorted to more fiendish involvements, for example Jim Ray concocting his acclaimed grilled cheese sandwiches, made over the biology department's bunson burner. Also, Loren Combs became known as the "King of Swat" in Mr. Brenneman's third period P.E. class.

However, student assistants proved to be a valuable asset to the teacher and more often than not, to the entire class.



Talented Students Unfold Musical Ability

Many varieties of students with special talent made up the music department. Each had its own characteristics, ranging from instrumental ensembles to choral singing.

The band, under the direction of Mr. Mark Van Gasken, provided the student with knowledgeable experience in playing high-calibre band material.

For the second year, Mt. Rainier had a concert choir. It was composed of over one hundred students under the direction of Mr. James Brandt. Later in the year Mr. Brandt was hospitalized. Mr. Einar Lindbloom replaced him to continue the tradition of an excellent choir.

The hit of the music department was the Dreamers. Wearing colorful outfits, they entertained at social functions and concerts. Among the places they entertained were the Vagabond Boat Club, the Angle Lake Fire Department and the Washington State Health Association.

New Demand Met by Counselor Increase

BELOW: Mrs. Nora Gustafson; counselor, French, English 12, junior class advisor.

In its tenth year with an enrollment nearing 1400, Mt. Rainier was shaped and molded by a fine group of administrators and counselors.

Serving in the capacity of principal, Mr. George Dorr lead a successful second year. He was ably aided by Mr. Neil McKay who for the first time in his ten years at this school, missed a few days because of a broken arm.

Nearly doubling in number, the counselors welcomed two new colleagues, Mr. Stan Reynolds and Mr. Cliff Vanderberg, coming from Sunset J. H. and Evergreen respectively; adding new depth to the already outstanding counselors.

Indispensable Helpers Hold the Fort

People would be amazed if they realized that without the work of our nurse, librarian, and secretaries, the school would be in a state of complete pandemonium. Spraining an ankle would be a major catastrophe and wobbling about for the rest of the day in acute pain would be the only answer. Our own Florence Nightingale, however, is always here with her bandages and iodine.

Using the library is a great help in studies — where else could one find out that antidisestablishmentarianism means the opposite of adherence to the principle of disestablishment. Just try to imagine the school without our secretaries. Answering our questions, keeping our records, and following the school activities, cannot be all fun. By the end of the day, however, they are still smiling and cheerful.

Assistant Junior Staffs Bolster Office and Library

Assisting the office in tracking and locating misplaced students required lots of patience, practice, and professionalism. The office assistants found that their work involved checking files and records, running errands, and taking over the answering service. Quite often they were seen patrolling the halls with a fistful of green slips. The selected class would then fill with wistful gazes as one poorly-prepared student would be rescued from a test.

The junior staff of librarians held the job of reshelving books, checking books out to the students, and generally being available when they were needed.

Cooks Offer Nourishing Meals, Custodians Care for School

School cooks and custodians, often the backbone of the school, put in long hours and tremendous efforts every day, but rarely receive special thanks.

The custodians kept things moving efficiently and smoothly all year long, which is no easy job. With 1400 students scuffling through the halls and jamming lockers, the custodians had plenty to do.

The cooks had an equally difficult time with all of the jobs that must be done. Those same 1400 kids stormed the cafeteria in three separate mobs each day.

ORGANIZATIONS and ACTIVITIES

'Male Rule' Tradition Broken in Student Government

Breaking the long tradition of male rule at Mt. Rainier, lively and enthusiastic Polly Dennis became the first female A.S.B. President. President Polly Dennis, Vice-President Steve Sadler, Secretary Dianna Barber, and Treasurer Debbie Dickson, were this year's A.S.B. officers. They found themselves busy with many hours devoted to Student Council and outside group activities.

Encouraged and advised by Mr. Gordon Dickman, officers and council sought to establish a sound communication between the student body and council.

Adding variety and interest to the year's program, they held a turkey raffle, sold Mt. Rainier emblems, and hosted the Puget Sound League Conference, an annual meeting of all the schools in the Puget Sound League, represented by twenty students from each school.

The forming of a new organization, Student Action Committee, took many hours of planned and organized meetings of the council. SAC, designed to promote student respect for Mt. Rainier, consisted of forty-two members, chosen from each of the three classes. At the start of the second semester the organization took effect.

Whether Mt. Rainier's A.S.B. officers will be future politicians or presidential candidates is unknow, but it is certain that holding the office and representing the student body is a great responsibility and rewarding challenge.

A Funny Thing Happened . . .

1967 Homecoming was filled with colorful renditions from the past. Making history of its own, the Mt. Rainier student body crowned Lynne Hammett as the Homecoming Queen. Assisting her were the senior princesses, Vicki Johnson and Sonja Lied; junior princess, Andi Clement; and sophomore princess, Pam Beardslee, who were also honored at the assembly. After the excitement of the coronation, the audience sat back and enjoyed the remainder of the program.

Contrasting the beautiful royalty, was a survey to find the ugliest man of the school. Winners of this contest were the "Ugly Man," Coach Doug Ringenbach alias "Mystery Man," with runner-up, Steve Bohn. Appropriately, a pep talk by Coach Ringenbach was given, followed by a yell from the cheerleaders.

Setting a fast pace were presentations such as the theme song "Comedy Tonight," a series of short, humorous songs by the Dreamers, and a satirical skit by one of Mrs. Lou Phillips' drama classes. It concerned the lives and loves of the "typical" teachers at Mt. Rainier. To climax the day's events, a reception honored the homecoming royalty and returning grads in the cafeteria.

. . . On The Way Through High School

A challenging treasure hunt, expected to last throughout the week, was put to a halt on Monday by Roger Dooley and Steve Peterson. Completing Monday's festivities was a Car Decorations Contest. Maille Farrar won this contest with the rejuvenated "Spirit of '67".

Tuesday was designated as Color Day in honor of Sophomore Princess Pam Beardslee. Cakes baked the previous night were judged and sold during the lunch hours. Sue Randall and Sue DuFresne were awarded the prize for the prettiest cake, with Barb Edtl baking the most "original".

The Junior princess, Andi Clements, presided over a chaotic school on Wednesday. Mutiny became a common occurrence as teachers and students switched positions in the classrooms for "The Day of Happening".

Thursday was highlighted by the annual Homecoming assembly and game.

Queen Lynne Hammett and her court presided over the regular school day, on Friday as well as the Homecoming Dance. The annual event gave a final salute to Mt. Rainier's 1967 Homecoming.

Our spirited, enthusiastic Boys' Club officers were: Roger Dooley, secretary-treasurer; Jim Sundin, president; and Howard Welsh, vice-president.

Striving to awaken the spirit of each and every student at Mt. Rainier, the Boys' Club sponsored a variety of activities throughout the year. President Jim Sundin started the year off with the annual blue and white football game, for which the losers were fed hot dogs and beans and the victors feasted on chicken and potato salad. The candy sales, which were one of the many fund-raising activities throughout the year, highlighted a very successful 1967. The Boys' Club also sponsored a mid-year acitivity for which they invited gymnasts from the University of Washington to perform for the school.

Girls' Club Unifies Rainier's Females

Each Monday after school, sixteen girls met in Room 319 to discuss the affairs of Girls' Club. As the nucleus of the club, they produced many unusual activities such as two of the major dances of the year. The fall tolo united all the clubs and organizations of the school in a "Kupid's Karnival." The spring tolo was successful in providing a special evening for the girls and their dates.

A major help in the problem of uniting seven hundred girls was the Girls' Club Council. Run by the co-ordinator, who was a regular member of the cabinet, it consisted of girls representing each respective home room. This organization worked with the cabinet to provide a special way in hearing individual view points. The Council headed some independent projects too. A party for underprivileged children was held at the Park Tutoring Center.

Discussing the problems of creating interest, Advisor Miss Kathy White and President Jo Cohn plan the agenda for the next cabinet meeting.

Outstanding Personalities Honored

Marty Eernisse and Caroline Nelson, drill team members, practice their routine.

Start out with a good personality, add a friendly disposition and a lively interest in school affairs, and the end result is a Girl or Boy of the Month. These people were chosen after long consideration by the Girls' and Boys' Club and then the final vote was left up to the faculty. The two students of the month were each invited to a special luncheon given by the Rotary Club in their honor.

These eighteen people chosen throughout the year possess outstanding qualities and are also an asset to our school.

"Seniors Rule" was the password to get into Senior Council this year, which was organized to aid the class officers in their difficult job of leading the Class of '68. Through elected representatives and "just interested" people, the class was kept informed of such activities as the senior class play, "Tom Jones"; the Senior Celebrities and the Senior Breakfast; Christmas hall decorations, which they won; the Senior Ball, "Heaven on Earth"; and finally, graduation, which was held at Lewis and Clark Theater. The money that was raised by these activities was saved for graduation, the senior cruise, and for the annual senior gift, which is given to the student body in appreciation for three eventful years.

The Choice Athletes Are United in

BELOW: Advisor Mr. Doug Ringenbach balances books with Lettermen officials John Welsh, Greg Lusk and Rich Pierce.

Athletes, whether they excel in wrestling, football, basketball, or track, are all joined together in Lettermen's Club. Their main purpose was to promote the image of the athletes throughout the school and they successfully demonstrated this during the year.

The Lettermen's Club arranged for the Harlem Clowns to play a team made up of our favorite faculty members. It provided a source of enjoyment for all the onlookers. Unfortunately, the faculty was defeated but they put up a good fight. John Welsh, the president of the club, had the new idea of having a dance for all the lettermen of the district which proved to be interesting and fun for all concerned.

The lettermen of Mount Rainier gave us great school spirit and a sense of fair play in sports.

Pep Club Zealously Supports Teams

Sixty Pep Club members packed in a bleacher produced a thundering roar whether their team was headed for victory or defeat. Pep Club was organized to serve the school and promote school spirit. Baking cookies, popping balloons, postering the school, and participating in pep assemblies helped the club to fulfill their purpose.

In many ways Pep Club worked for spirit and enthusiasm. Selling programs at games, making chrysanthemum corsages for Homecoming, and attending each major game helped this club to earn its name.

Congenial Clubs Add Color to Games

Due to uncontrollable circumstances, the STAGS club was officially disbanded this year. However, a spirited group unofficially called the Derby-and-Garter Guys upheld the STAGS tradition at the games and pep assemblies. They wore derbys and distinctive shirt garters, but denied any association with STAGS.

The girls of Service Club sold tickets during home games, and gave out programs at concerts and school plays. Thanks to Service Club, things went much smoother and school functions were more efficient.

At every home game, the drill team performed. These hard-working girls practiced long hours perfecting drills and new routines. It took ingenuity and creativity to be a drill team member. Their hard work was rewarded by favorable results.

Music Department Tops in Performance

The band, under the direction of Mr. Mark Van Gasken, proved themselves superior again this year. Marching during halftime at the football games and playing at numerous concerts helped them to display their varieties of talent.

The stage band was a big success. They displayed a "big-band" style at special assemblies.

Mt. Rainier's orchestra, under the direction of Mr. Harlem Moen, had a fine year. One of the highlights of the year came at the Christmas concert when the orchestra accompanied the choir in "Hallelujah."

Choral Groups Show Outstanding Ability

The choir proved its excellence this year, not only by performing at school concerts, but also by sending students to the All-State Choir Contest last March. Representing Mt. Rainier were Doug Gibson, Joy Caulley and Bob Roberts. These people were three of 400 students accepted to compete. They were chosen by their ability to sing and by a recommendation from their music teacher.

The advanced choral ensemble performed many times throughout the school year. This group was composed of selected music students who studied the different varieties of music through specialized vocal training.

After a year and a half of intensive planning, the Student Action Committee became an official school organization this year. Acting in the capacity of a spirit-instilling, respect-promoting group, SAC was set up to reason with offenders of school policy rather than punish them.

The traffic court, with Judge Pat Dolan, worked vigorously to keep order in the student parking lot. Under the supervision of Mr. Richard Brennemen, the members of traffic court spent many hours before and after school checking the parking lot, notifying offenders, and holding court.

Ski Club had a very large turn-out despite the problems the young club faced. The membership consisted of 105 interested students. The biggest of the club's goals was to strive for acceptance as an official organization of Mt. Rainier. They continually faced the uncontrollable snow conditions which were usually reported by word of mouth as two inches total with three inches of mud. Although the club did not accomplish all of its goals, it had a great number of people participating in the pre-paid series of ski trips to Crystal Mountain ski resort.

Exchange Unfolds Lasting Impressions

Paying scant heed to time and energy used, Foreign Exchange Club members earned the money needed to send and receive exchange students. The stock sale and the annual candy cane sale during the Christmas season focused the members' determination on their goal. After intense planning and nervous anticipating, the Variety Show was not only entertaining but successful. Foreign Exchange Day allowed students to meet exchange students and to talk and develop an understanding of each other.

Ester Salama and Diego Gavilanes, this year's exchange students, proved not only capable ambassadors of their own country but also friendly and inquisitive students. This past summer Kathie Shepard proved an able representative in Colombia. Through the efforts and goals of Foreign Exchange Club, students had the opportunity to broaden their knowledge of other countries and people.

Top Ten Inspire Underclassmen

Setting a goal that others can strive for, the Top Ten inspired not only their fellow classmates, but also upcoming underclassmen.

The scholastic excellence of the Top Ten was acheived through many hours of studying. However, their after-school hours weren't filled with just books. Chris Evans was on the yell staff for two years. Much of her time was spent practicing and attending all the games. Eric Hisken, a member of the Lettermen's Club, was a star athlete of the basketball team.

Intelligence paid off for Jon Jacky, captain of our Hi-Q team. Quick reactions combined with the knowledge of his teammates helped Jon lead Mt. Rainier on to well-won victories.

Concentration, experience, creativity and imagination are vital components to one of the most strenuous games of mental combat. Only a few ever feel capable of the quality of competition met by Chess Club. The club became affiliated with Seattle Metro League in November and was then able to play many of the Seattle school teams.

Putting aside science and relying on superstition temporarily, the Science and Math Club spent first quarter creating and selling black voo-doo dolls in an attempt to raise money for science equipment. The small group proved more active than usual.

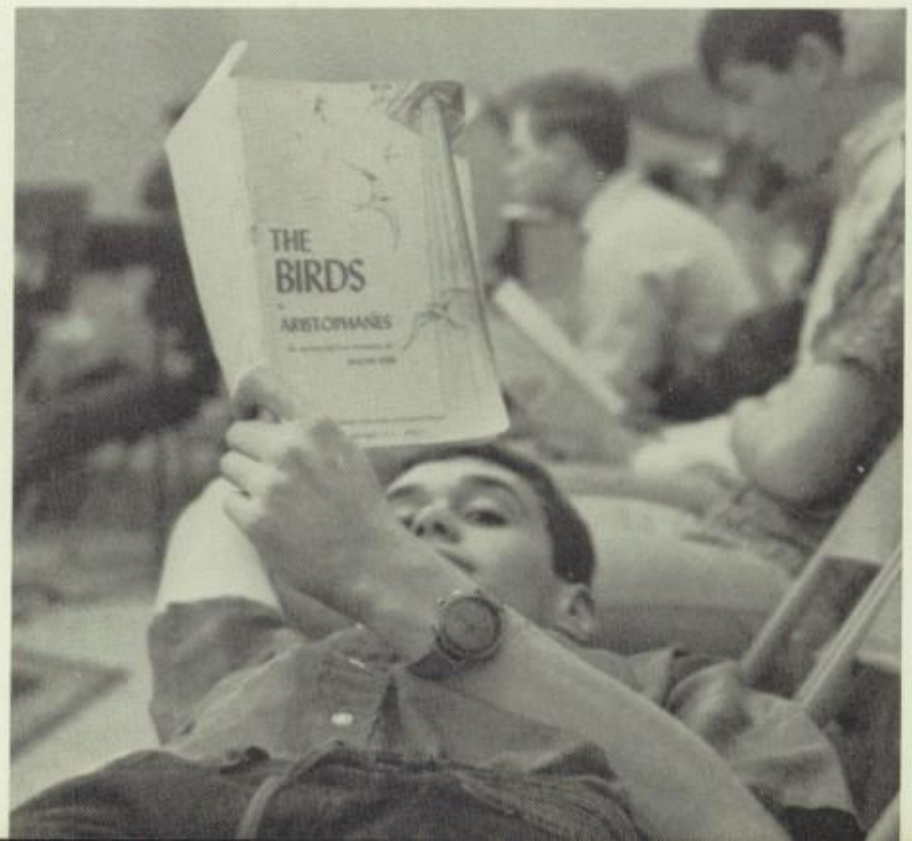
Aristophanes' *"The Birds"* Wins Acclaim

Aristophanes acquired quite a following during the seven-week period that the all-school play was in rehearsal. Throwing conformity out along with conventional costumes, Mrs. Lucille Phillips chose for the 1968 all-school play, a Greek comedy entitled "The Birds" by Aristophanes. Her assistant director was Jill Austin.

The cast included two traveling Greeks, Larry Hottenstein as Euelpides and Doug Lien as Pithetaerus, and a cast of thousands . . . of birds. The plot was centered around a pair of Athenians in their search for that "City in the Sky," more commonly referred to now as "Cloud Cuckoo-land."

Even in relaxation, practice cannot let up as Doug Lien knows.



Local Competition Reveals Knowledge

After being given notice by the officials of the locally televised high school quiz game, Hi-Q, Mr. Gary Mohr molded together a championship team in two weeks. Jan Sanislo, Jon Jacky, Ken Brumbaugh, Sharyn Allsopp, and alternate John Baker were selected for their quick, accurate recall. They successfully matched wits against defending champion Franklin, then Wilson and finally with Queen Anne for a victorious sweep.

Out of eleven students in Washington, four Mt. Rainier students were named as finalists on a statewide level in the Westinghouse Science Talent Search. The students, Eddie Howard, Bill Fisher, Jon Jacky, and Craig Powell, were all part of the science-math program advised by Miss Marian Berdan, Mr. Ed Johnson and Mr. Gary Tressel. Written reports, based on self-conducted science projects, were analyzed and graded by a special staff of judges at Westinghouse. Two alternates, Eric Hisken and Sharon Solsvik, were also named from Mt. Rainier. As an extra honor the students were invited to hear other students' reports, listen to science lectures and tour research organizations at state competition in Richland.

Society Recognizes Outstanding Scholars

Led this year by Bob Knight, the Honor Society set about gaining recognition for outstanding students. Along with the new advisor, Mrs. Kemp, the officers and club held a slave sale, a potluck dinner to honor new sophomore members, and a barbeque. The proceeds from the slave sale went toward the barbeque and to the pins given the graduating seniors in recognition of their having belonged to the Honor Society.

Witty Comedy Charms Crowds

The lively, sharp-witted comedy, Tom Jones, by David Rogers came to life as this year's Senior Play. Using traditional costumes of the eighteenth century, acts passed quickly and comically. Partridge, one of the characters, narrated the romantic story of Sophia Western and Tom Jones, and how they were influenced by a number of comical characters who included Doug Mills, Nadine Wieder, Doug Lien, Paul Johnson, Georgia Strange, Jim DeBoer, and Terry Chittenden. With Mrs. Lou Phillips as the director and Jo Righi as student director, the cast delivered four successful performances. The cast and stage-crew of Tom Jones prepared the play for presentation in the short span of six weeks. The several bursts of applause made all the rushing and worrying seem worthwhile.

Students Guide Children at Waskowitz

Camp Waskowitz brings to mind a week of fun, frolic, games, and a vacation from school. Those who have been there can tell of the work, responsibility, late hours, and good food which are part of being a good counselor.

The excited sixth graders immediately develop "hero worship" of their high school leaders. Living with the children brought about friendships, fun, and a deep sense of companionship between counselor and camper.

The week consisted of hikes, cook-outs, obstacle courses, square dance night, skit night, movie night, a trip to Weyerhauser's mill, a "plant-a-fish-in-the-river party," and a pillow fight in the dorm after "lights out."

The week invariably ended all too soon and the average junior counselor found a week of homework to be finished in a frantic weekend before returning back to school.

Senior Activities Help Break Routine

After the Senior Breakfast, Connie Marshall and Buster LaBrie demonstrate the technique that won them the titles of "Best Dancers".

The Senior class of 68' somehow managed to excel in all phases of leadership. Listed among the number of senior-sponsored activities this year were the Senior Breakfast and the Senior Ball. The Senior Breakfast was held in late December in the cafeteria and was highlighted by a musical program which featured the Stage Band, the Dreamers, and Mr. Bill Hill. Introduced for the first time were the Senior Celebraties ranging from "Slenderest Ankles" to "Most Likely to Succeed." "Heaven on Earth" was the theme for the 1968 Senior Ball. Entertaining for the evening was a group who had not performed at Mr. Rainier before, "The Steve Parker Quartet."

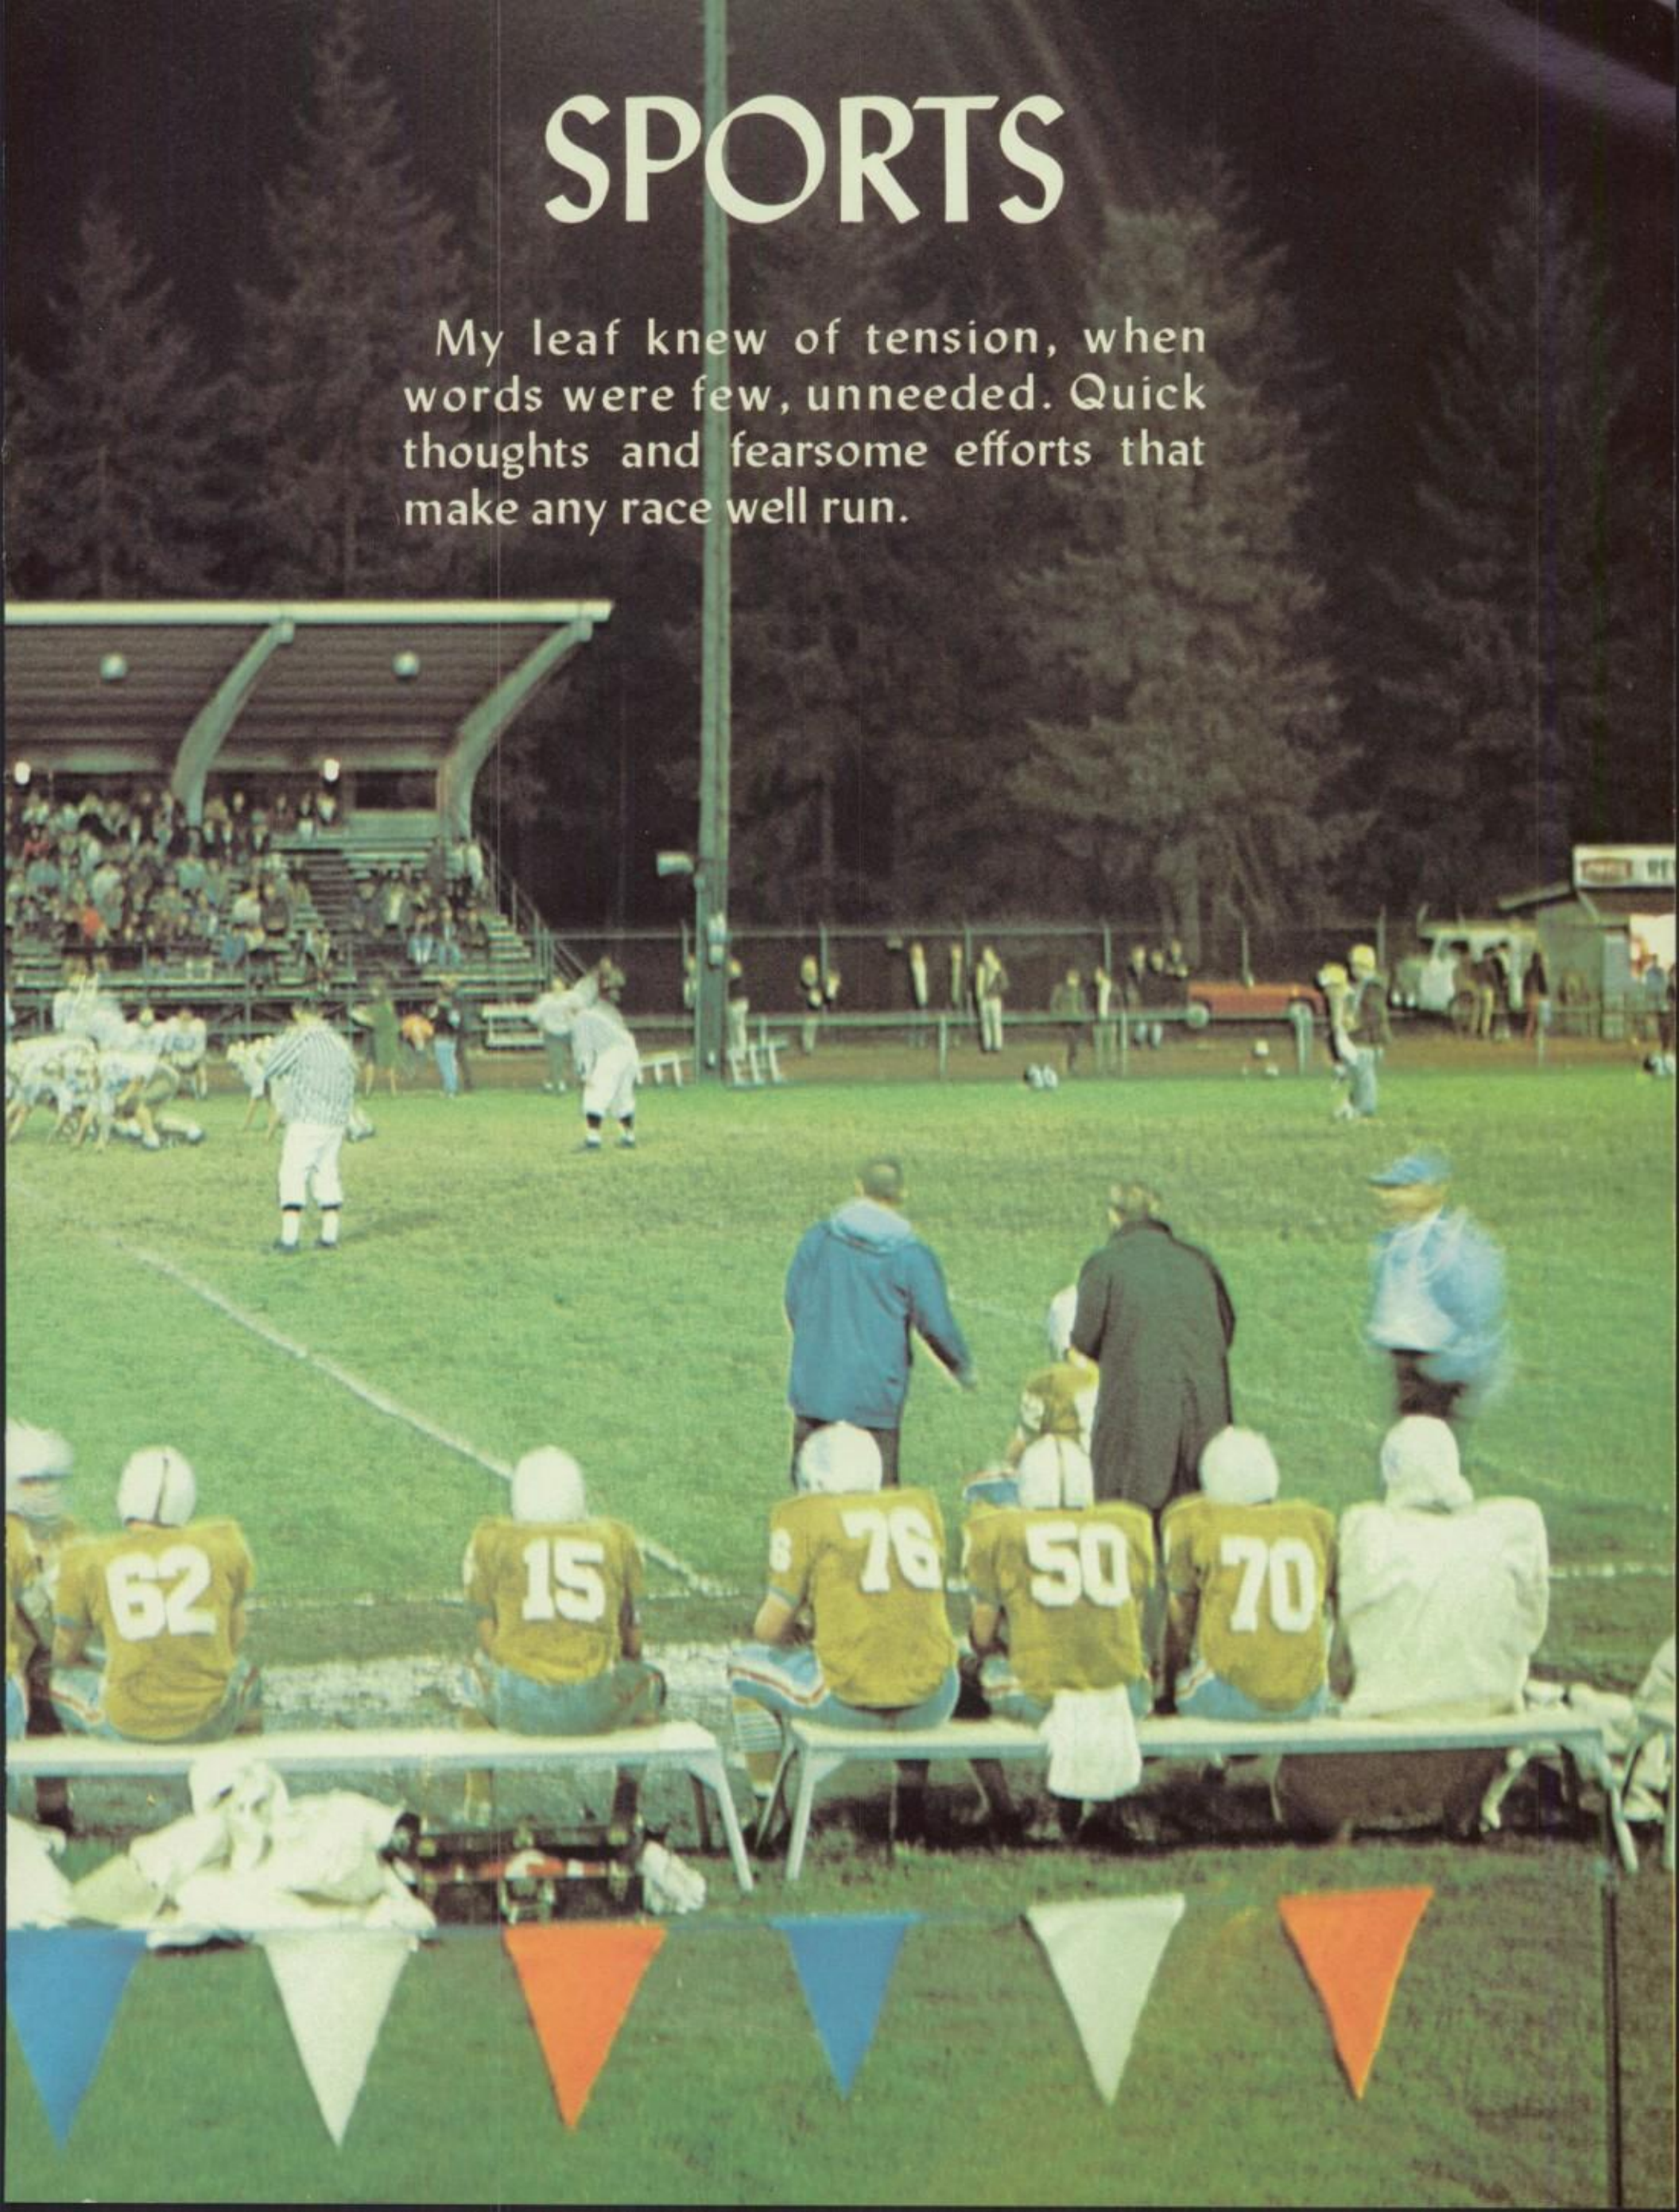
SPORTS

My leaf knew of tension, when words were few, unneeded. Quick thoughts and fearsome efforts that make any race well run.



"New Look" Inspires Team Performance

The "NEW LOOK" was founded on the idea that an athlete could not bring himself into top competitive condition within the regular football season. Head Coach Doug Ringenbach set up an off-season weight-lifting program so that his boys would have year-round conditioning. When the boys achieved the goal set by the coaches they were awarded a gold stripe on their helmets, distinguishing them as "Golden Rams."

Along with the new ideas, methods, training, and uniforms, there was a new sophomore team. Coach Sam Moyle's "Little Rams" romped over team after team, setting a great example for this year, with even greater hopes for the next.

Obviously requiring little technique, the very stylish "wrestle.s cut" is given by Greg Lusk to Bob Steinbach.

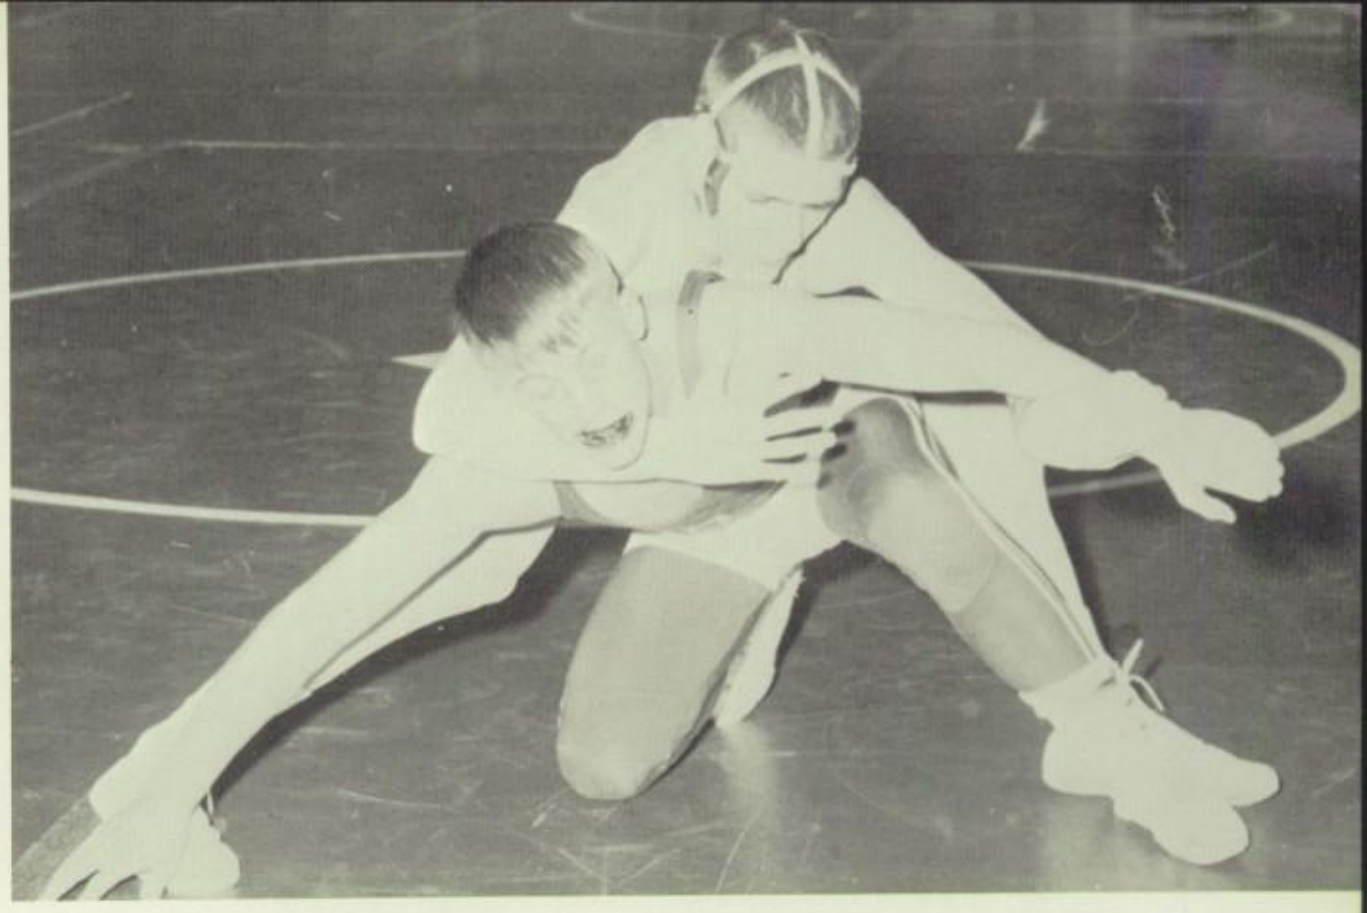
Coach Richard Brenneman anxiously checks the clock in anticipation of a win.

Wrestling, a sport possibly 5,000 years old, is continually being added to athletic programs throughout the state. Along with some new tactics, lots of team spirit, and a fine coach, wrestling is growing in popularity and enthusiasm of the student body.

The team's success in the past has been good with three seconds and one fourth at state and two first at the district tournament.

Around forty wrestlers made up this year's team and worked out every afternoon from 2:30 to 5:45. This workout included the very famous "ten-minute burn out", a series of exercises guarenteed to incinerate your lungs.

The team's potential in the next two years is unlimited. With a combination of their physical abilities and fine attitude, they may surpass all expectations.



Varsity wrestler, Greg Lusk, breaks down obviously injured opponent.

Brenneman, Burn-out Makes Fine Team

ROW ONE: Bob Lee, Greg Lusk, Robin Malmanger, Steve Buck, Robert Steinbach, Don Repp, Roger Wiseman, Jim Latimer, Rick Wigre, John Welsh. *ROW TWO:* Kim Trimble, Dean Adams, Guy Malone, Jeff Skillingstead, Pat Powell, Ian Weider, Bill Holloway, Dave Wheeler, Curt Andrew, Bill Shivers, Russ Haugue. *ROW THREE:* Coach Richard Brenneman, Clyde Jacobus, John Malmanger, Norm Peterson, Darrell Larson, Mark Hizen, Byron Steenerson, Doug Stensby, Mike Howard, Gary Urquhart, Mark Dorr, John Hill, Chris Cooley, Dale Small, Mr. Ernest Ehinger, Steve Beumeler.

TOP, left to right: Eric Peterson (manager), Ken Love, Jim Sundin, Brad Hill, Ken Sovold, Brent Fredrickson, Doug Williams, *BOTTOM*, left to right: Dick White, Warren Swope, Ken Krahn, Bob Clark, Jerry Maurseth, Bill Myers. Mr. William Hill, advisor.

While Tromping Through the Tulips . . .

Running cross country was easy, provided you were a spectator. For example, daily warm-ups consisted of running and jogging the 440, exercising for ten or fifteen minutes to loosen up, and then trying a two-mile run. At times, the men had to run as many as six 440 sprints. Then, after running seven or eight miles, the team somehow found strength to lift weights twice a week.

The only qualifications were endurance and a desire to participate in tough competition. Mr. William Hill, the new advisor for the sport, thought the team improved immensely and returning underclassmen would insure an experienced team next year.

LEFT: Running through the woods and over the hills are some of the fine points of cross country, as illustrated by Jerry Maurseth. *BELOW:* The last mile is sometimes the hardest but always the most rewarding as shown by Jim Sundin, Ken Krahn, and Warren Swope.

LEFT: Observing a teammate's skill are John Welsh and Jeff Skillingstead. *LOWER LEFT:* Taking it easy out on the track, Bob Lee uses the excuse that running is good for the legs.

ABOVE: In the true Ram spirit, Dave Wheeler, left, and his opponent get ready to lock horns.

Winter Sports Emphasize the Individual

Even though wrestling, swimming, and cross country are varied from one another and are in season during different parts of the year, they were alike in many respects.

Each was a sport in which the concentration was placed on the individual to win a team victory. The result of this concentration was the building of a drive in each member of the teams. Contributing to this drive were hard work, enthusiasm, dedication, and a special respect to the sport itself.

BELOW: As teammate Doug Lien looks on, Ron Johnson performs a flip turn. *LOWER RIGHT:* An inward one-and-a-half dive as demonstrated by Bayard Johnson requires both skill and practice.

The swiftness of action in basketball is one of the biggest reasons for its popularity. Basketball demands and develops a high degree of muscular co-ordination and skill. A player who tries to perform as an individual will not add to his teams chance of winning. It has become a major part of the athletic program of almost every group which sponsors sports activities.

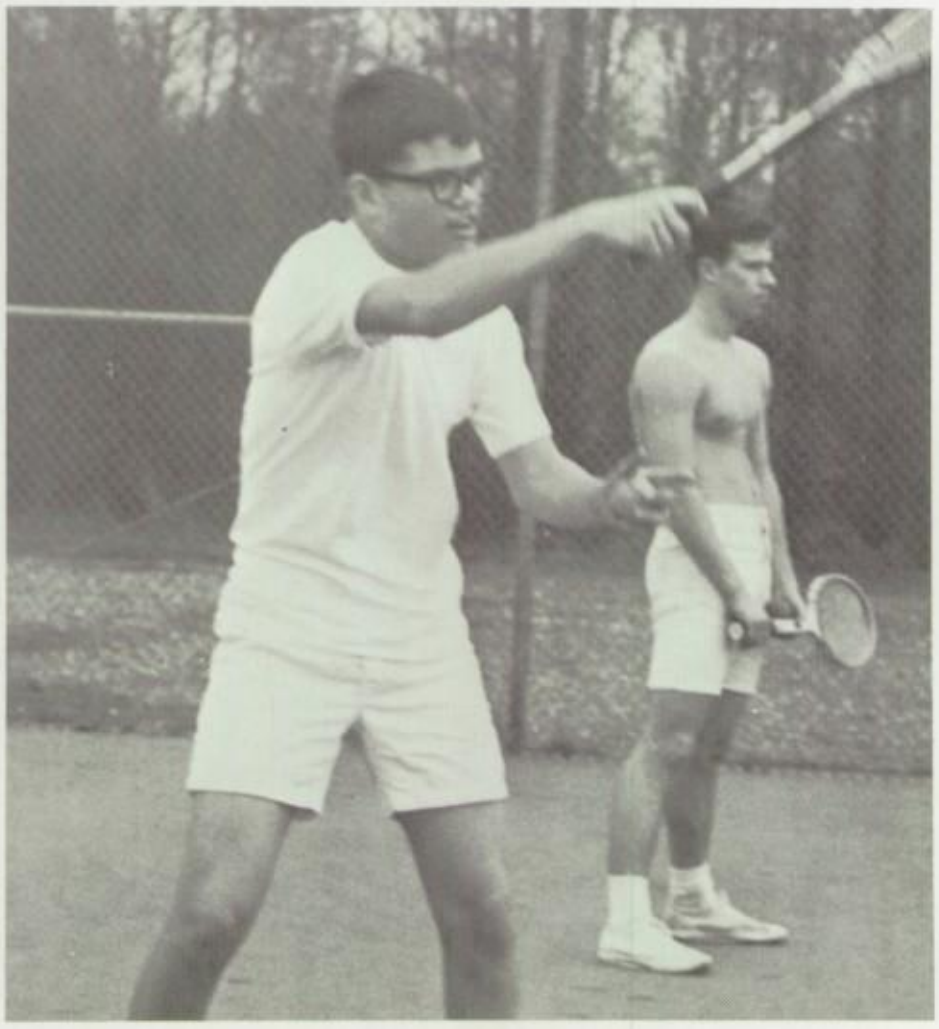
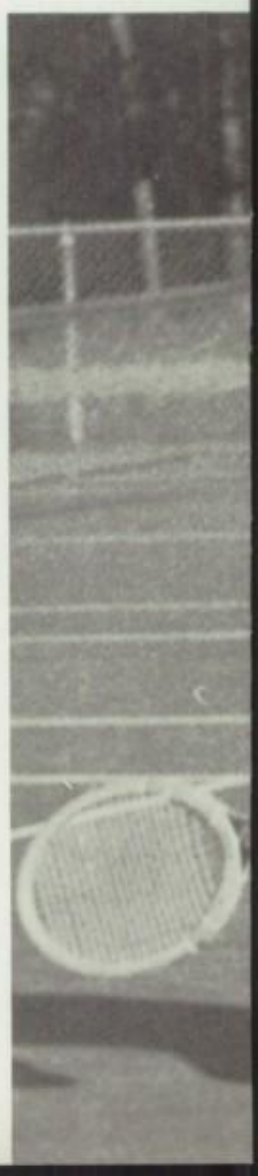
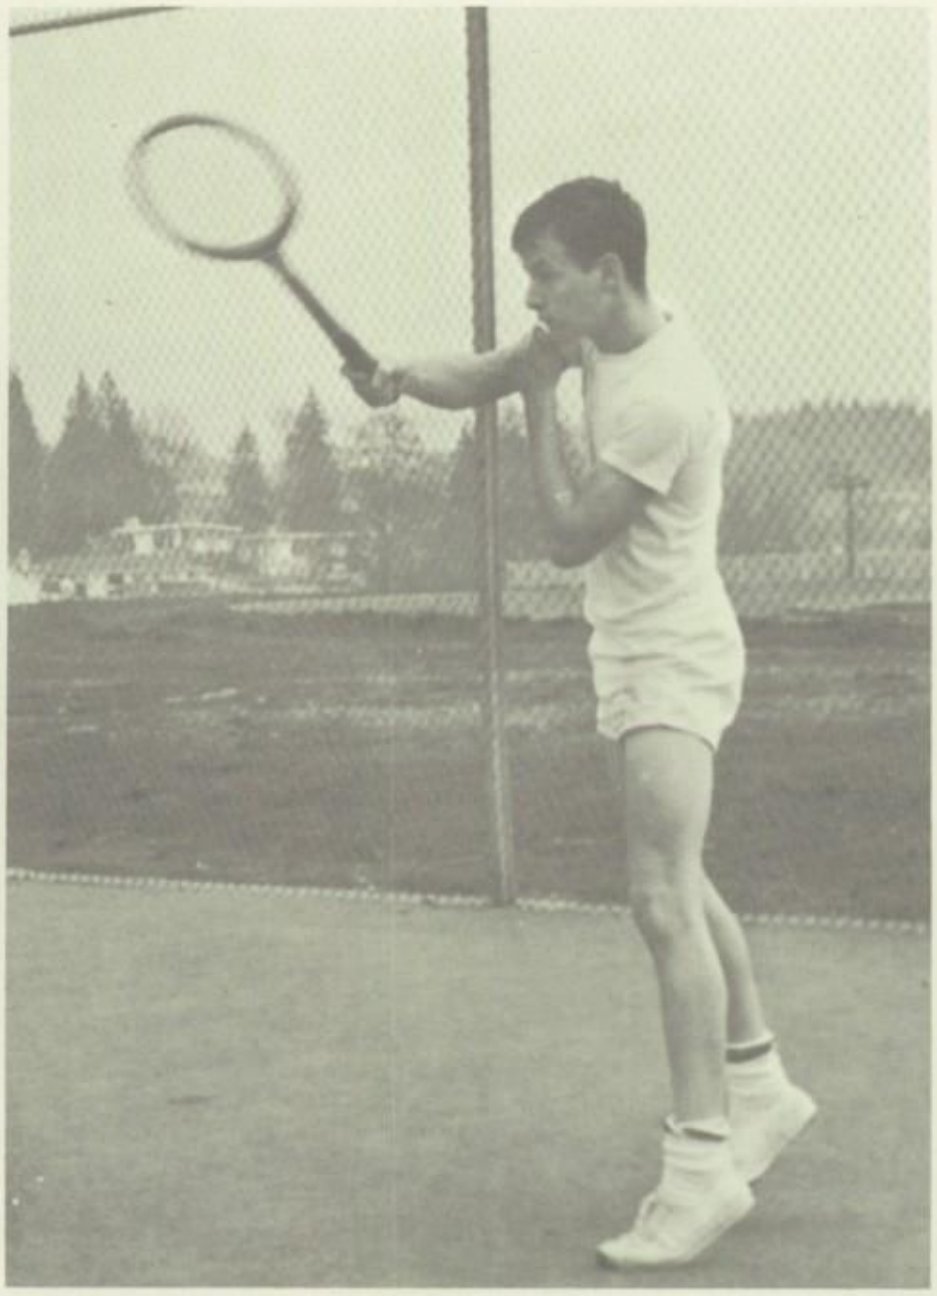
Hours Of Practice Perfect Skills



Tennis, one of Mt. Rainier's spring sports, began its season in late February. Like many sports, tennis required a great amount of skill, discipline and enthusiasm. This year, as in years past, the varsity and junior varsity teams spent many hours after school, and on weekends, learning and perfecting new skills, styles and techniques. Since top physical condition was necessary for this rigorous sport, players had to begin working out long before the tennis season opened. Even the most uncooperative weather failed to discourage the team, for when it was storming the team retired to the gym for practice.



RIGHT: Three-year member, Chris Pennington, returns a low ball in doubles. *LEFT:* Mark Hilsen and Al Chaffee war up before a match.



RIGHT: Dave Hall, also a returning varsity member, shows extreme skill as he returns a high ball. *ABOVE:* With a hard smash, Dean Adams returns a serve from left court.

One distinction that Mt. Rainier's swim team has over any other school organization is that each year they seem to break all the old records. With the exception of the 100-yard breast stroke, the team outraced last year's team in every event and Chuck Hoag, a sophomore, came perilously close to breaking the old breast stroke record, within two tenths of a second.

Even though they had excellent individual records, the team, which was short one member, accumulated a six-ten win-loss record. They also placed fourth in the King-Pierce relays and third in the Thunderbird relays.

Boys' Intramurals,

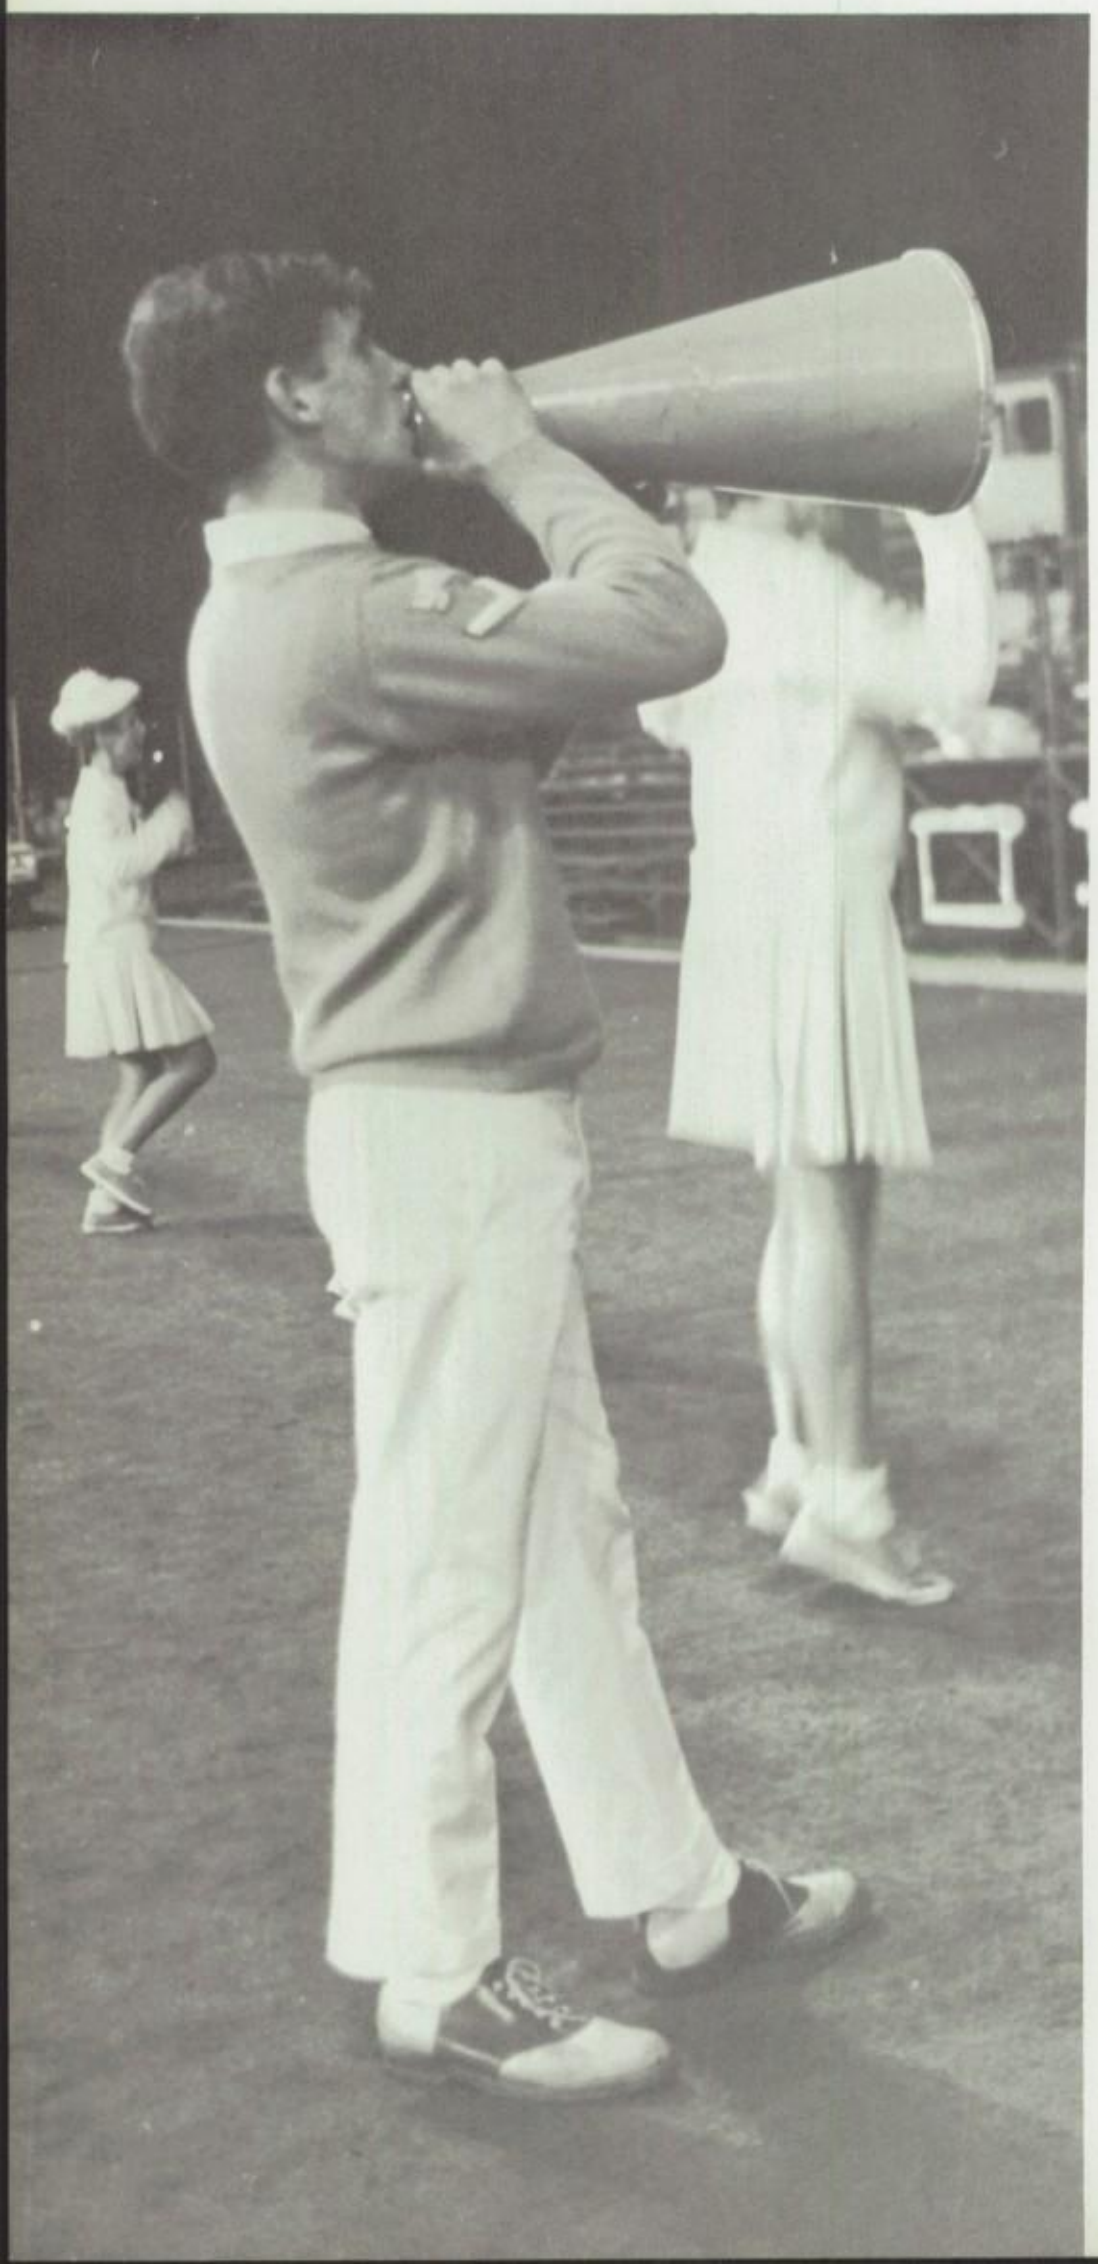
GAA Encourage Sportsmanship

The art of sportsmanship, working together, and having fun are some of the things a person must practice through life. These are also the goals set by the Girls' Athletic Association and Boys' Intramurals, to be achieved through active participation in sports. After a grueling day behind the desks, a person could find relaxation and companionship through group and individual efforts, and also help themselves to keep in shape and improve coordination.

RIGHT: Connie Stamps finds that the parallel bars require balance, skill, and grace. *BELOW:* Jenny Calkins executes a graceful maneuver on the balance beam.

Masculine Touch Motivates Song and Yell Staff

Reverberating sounds burst forth as George Beu leads a yell.



The new look of Mt. Rainier sprang up everywhere; not only with the teams, but also with the cheerleaders. Our nine cheerleaders were bursting with enthusiasm, always spreading school spirit throughout Mt. Rainier.

The cheerleaders spent endless and devoted hours perfecting routines both new and old. They provided enthusiasm at the games and pep assemblies by leading songs, yells and our traditional alma mater.

This year we were fortunate to have a yell king, George Beu. A yell king was something new and different for Mt. Rainier. George and his megaphone provided resonance at all the games and assemblies.

Outage Adds Unique Touch to Season

ABOVE: During a very mysterious power outage, Becky Finkbiner tries to keep the crowd occupied. *LOWER LEFT:* Bruce Hatfield narrowly misses a rebound, while John Streich and Ed Hopkins look on. *LOWER RIGHT:* Bruce Hatfield and Ed Hopkins reach to take the ball away from a Franklin-Pierce Cardinal.

This year our football and basketball seasons, although they weren't the best, turned out better than last year's. The teams supplied us with some very unusual and exciting plays. The 1968 varsity football team should be in great shape because of the sophomore team, which took first place this season, and because of some outstanding juniors that played.

Lovers,
You're the

so smart, I might
consider going with you,
Actually, I'd like to say that
the world is yours for the
asking. You're great!
Love always,
Marie

DEDICATION

Mr. James Brandt, outstanding choir director who suffered a stroke in December, is now recovering under the care of his wife, Noreen.

The answers quick and keen, the honest look, the laughter, the love —
Music my rampart, and my only one.

Edna St. Vincent Millay

Loren,
Have a fun summer
Make sure you stay
out of trouble and if you
have any problems
keep me informed. Please
keep me posted on
your whereabouts.
I'll be anticipating
to hear from you
soon.
Love ya,
Barb

Loren,
Hey! Hey! We're
finally out! Wow!
No more time to put
in at good ol' Rainier.
Great times ahead I'm
sure. Was great getting
to know you better this
year, really a smartie ya
are. Hope ya have
humanities. Hope ya have
the best summer yet!
Stay out of trouble & best
of luck next year. Probably
see ya on the road
or at sand Pits
this summer
Be good.
Love ya,
Barb

Loren,
We have been good
friends for a REALLY
Long time. Your a dark
nice guy, a real good
wrestler (for such a big
guy) and another good
quality you have is your
fabulous handsome
face. You are neat. KEEP
in touch. Love & KISSES
Ron B.

Loren,
You're a real cute
guy (and we wish you
had) (at least) (at road & any
other) endeavors). Be
good & don't break
too many hearts on
the way to the core.
Lots of luck,
Vicki Thorgrew

Hope the future is good to your old (oops young)

Body. A trip over get a paid trip to Viet-Nam look me up!!!

Bob Pierce

Have fun this summer. Keep your head & your nose clean. Don't get drafted & don't work too hard.

Lil' Loren-

After a year of you picking on me, I survived and am graduating. Be sure and come over and see me this summer.

Love ya
Audrey

LOREN - WELL KID THIS IS IT AFTER GOING TO SCHOOL FOR 6 years TOGETHER I GUESS IT'S TIME. TAKE IT EASY (OR ANY WAY YOU CAN) AND HAVE FUN!

PAT DOLAN

Loren,
It's nice. Life. Loren
Keep kootie sick.

I can't say
something nice
about him. Time out

Love, Cindy

LOREN,

I am really glad I got to know ya this yr. Wasn't it fun in typing class? You're really a great guy and I'm really going to miss your friendly face around School next yr. Have fun and maybe I'll see ya up at Kennup cabin - Love, Mary

Jorem,

Sometimes you were a little brat but this class wouldn't have been much fun without ya. You're a great kid and ya know I'll miss you.

Have a good summer & stay out of trouble.

Hope to see you around this summer.

Love,

Rosy Read
